THE COURT CALENDAR

Arranged Yesterday Morning by Members of the Wilmington Bar.

WILL BE CONVENED APRIL 16.

Case of Mrs. Strauss Against the City of Wilmington Set for First Day—The Cases Against Policemen for Alleged False Arrest.

The Spring term of New Hanover Superior Court will be convened here by His Honor Judge George H. Brown, Jr., on to-morrow week. Solicitor Rudolph Duffy will be in attendance as solicitor, and it is expected that the term will last for two weeks, though there are few cases of general importance to come up for trial. The motion and summons dockets, which are being prepared by Col. Jno. D. Taylor, clerk of the court, are small for the term in comparison to those of the past few terms, and outside of those mentioned in the STAR during the past week, there are no cases of very general importance thereon.

The case of Mrs. Strauss against the city for $50,000 alleged damages on account of injuries to her husband which culminated in his death by reason, it is claimed, of negligence on the part of the defendant city, has been set for the first case on the first day of the term. It will be remembered that in 1899 a trial of the action resulted in a mistrial and it is expected that this will be one of the most interesting of the cases on the trial docket.

On Monday of the second week the cases against Policeman H. H. Woebse, et al., for alleged false arrest of Messrs. W. T. Mercer and Ira Williams will be heard. The complainants, ask for considerable damage and the termination of the case will likely settle some fine points of municipal police authority. The circumstances of the incident are well remembered by STAR readers. L. V. Grady, Esq., has been retained as counsel for the plaintiff and Herbert McClammy, Esq., and city attorney Meares will represent the police officers.

The following is the trial docket as arranged yesterday morning by members of the Wilmington bar:

Monday—Mrs. J. R. Strauss, Ex. vs. City of Wilmington; Solomon King vs. Harriet King.

Wednesday—R. W. Hicks vs. John R. Turrentine; George P. Cotchett vs. Virginia Carolina Chemical Company.

Friday—City of Wilmington vs. Caroline Howe, et. al.; W. E. Worth & Co. vs. T. J. Fergurson & Co.; W. A. Farris vs. T. J. Fergurson; J. L. Boatwright vs. T. J. Fergurson, & Co.; S. W. Sanders vs. T. J. Fergurson & Co.; Giles Cannon vs. T. J. Fergurson & Co.; H. E. Bonitz vs. Frank T. Mills; National Cash Register Co. vs. Lucy J. Farriss.

Saturday—R. W. Smith vs. Interstate Telephone and Telegraph Co.; J. D. Sidbury vs. W. T. Bannermann; Laura Gertrude Hales vs. J. W. Harper.

For Democratic State Convention at Raleigh, N. C., April 11th, the Atlantic Coast Line will sell round trip tickets from Wilmington to Raleigh at rate of $6.55 for round trip. Tickets on sale April 9-10-11th with final limit April 14th.

NEW HANOVER DELEGATES TO THE STATE CONVENTION

Prospects for a Fair Attendance at Raleigh Wednesday—The Representation of Nearby Counties.

The indications are that a pretty full delegation of New Hanover Democrats will attend the State Democratic Convention at Raleigh Wednesday. Fifteen is the number of regularly selected delegates and fifteen alternates have also been named from this county. The Atlantic Coast Line has announced a round trip rate of $6.55 for the occasion and tickets will be good until the 14th inst. The names of delegates and alternates have already been published, as were also those from Brunswick county. It will be remembered that New Hanover's delegates have been "earnestly urged to support" upon this occasion Hon. C. B. Aycock for Governor, Hon. John S. Cunningham for Lieutenant Governor; Hon. Dan Hugh MacLean, for Secretary of State; Hon. H. A. London, for State Treasurer and Hons. Franklin McNeill, of New Hanover and Samuel L. Rogers, of Macon, for Corporation Commissioners. They were also asked to support the movement for a primary for the election of United States Senator and to work for the nomination of Col. A. M. Waddell.

There will be 971 delegates in the State Convention, the number being based upon the ratio of one delegate for every 150 votes cast for Watson for Governor in 1896, and by this method of arriving at the representation, New Hanover is entitled to fifteen votes in the convention, Brunswick, 5; Carteret, 8; Columbus, 9; Cumberland, 13; Duplin, 10; Edgecombe, 12; Halifax, 13; Harnett, 8; Johnson, 20; Macon, 7; Mecklenburg, 30; Anson, 11; Montgomery, 7; Moore, 12; Nash, 11; Northampton, 11; Onslow, 8; Pamlico, 3; Pender, 7; Pitt, 17; Richmond, 12; Robeson, 15; Sampson, 8; Union, 12; Wake, 30; Wayne, 18; Wilson, 10; Beaufort, 14; Bladen, 9; Buncombe, 28; Caswell, 9; Burke, 10; Cabarrus, 10; Caldwell, 9; Chatham, 11; Craven, 11; Cleveland, 13; Granville, 33, Iredell, 17; McDowell, 7; Randolph, 15.

It will appear therefore that 486 votes are necessary to make a nomination.

The convention will be called to order at 11:45 o'clock in the Academy of Music, Raleigh, and the doors will not be opened to the public until all delegates are seated.

Delegates will be admitted by cards of admission which will be furnished by the secretary at the district meetings. The district delegates will meet at various points in the city at 9 o'clock Wednesday morning for the purpose of organizing.

The Mayor's office has been designated as a place of meeting for the Sixth District delegates and they will assemble for the purpose of selecting Committeemen on Credentials, Committeemen on Permanent Organization and Rules; Committeemen on Platform and Resolutions. One Vice President from each District; four members of the State Democratic Executive Committee from each District; two delegates and two alternates from each District, to be sent to the National Democratic Convention to be held at Kansas City, July 4th, 1900.

"EXPOSURE" OF MORMONISM.

Large Crowd Will Attend the Religious Debate at Hampstead To-day.

Many Wilmington people will this morning go out on the excursion over the Wilmington and Newbern railroad to Hampstead, Pender county, to attend the joint debate between Elders J. P. King and J. W. S. Harvey, of the Second Advent Church, and a number of Mormon elders, who are working in that neighborhood.

A special train will leave the Front street depot at 9.05 o'clock this morning, and the fare will be 50 cents for the round trip from Wilmington and 25 cents from Scott's Hill. The train will leave Hampstead for the return at 5 o'clock this afternoon.

The speaking, which will be an "exposure" of Mormonism, will take place in the Mormon church at Hampstead, and a very large crowd is expected. The Wilmington Street Railway, for the convenience of its patrons in the city, will put on cars at 8 o'clock this morning to accommodate those who may wish to leave on the excursion.

Hampstead is a small station in Pender county on the Newbern railroad, about ten miles from Wilmington, and those who go this morning are advised to take with them a luncheon as there are no hotels or boarding houses in the village.

Sovereign W. H. Badon, of Live Oak Camp, No. 6, Woodmen of the World, this city, has received his commission as Deputy Sovereign Commander of the district embraced by Richmond, Moore, Harnett, Wayne, Greene, Craven, Pamlico and all other counties in the State south of those mentioned. Nothing like being pleased with your purchases. Goods bought in a hurry, made in a hurry, are not satisfactory one time in ten. Our main object is to please our customers, sell them something stylish and becoming.

We prefer to sell one customer and please, than to sell two and have them displeased. The first will come back again and again, the other two, well—it may be their fault, but we get the blame and it's no easy matter to sell them again.

Bargains.

The Morning Star

BY WILLIAM H. BERNARD.

WILMINGTON, N. C.

SUNDAY MORNING, APRIL 8, 1900.

A COWARDLY DODGE.

Yesterday we referred to the case of Jorge Cruz, a Porto Rican, who had been brought to New York by the *Herald* under contract, but who was refused permission to land, and was held to be deported, because he had been brought, as alleged, to this country in violation of the alien contract law. Steps were at once taken to test the legality of his detention and deportation with the view to bringing the case before the Supreme Court of the United States to obtain a judicial decision as to the status of the people of Porto Rico, as to whether they are aliens, which they must be if they can be excluded under the alien contract law, or citizens of the United States.

Judge Dittenhoeffer, who had been retained to argue the case for Cruz, applied for a writ of habeas corpus and for another of certiorari to Judge Lacombe, of the U. S. Circuit Court, who granted both and made them returnable before him the next day; but before the writs were returned Secretary Gage, doubtless, after consultation with other members of the administration, forestalled judicial proceedings by issuing the following to Commissioner Fitchie, in pursuance of which Cruz was released:

"You will allow Jorge Cruz to land, the department reserving the right to deport him at any time within one year, and to bring suit for $1,000 penalty against the person or corporation assisting, encouraging or soliciting him to come in under contract.

"It appears that Cruz came without knowledge that he was in violation of law, if he be here in violation of law. It further appears that he was brought here to make a moot case, and not in good faith, as a contract laborer.

"This being an isolated case, public interests are not affected by allowing him to land subject to future deportation.

"Legislation now pending in Congress may change the present status.

"The department prefers to test the question by bringing suit to recover the penalty imposed by law upon the person who brought Cruz into the country under contract.

"The matter will be referred to the Department of Justice, with request to take such action in this direction as the case may justify."

This is interesting not only as an exhibition of moral cowardice, but as a piece of trickery to prevent a judicial interpretation of an important matter under dispute, as a sneaking subterfuge in the reasons assigned for the action taken, and as a vital blow at the alien contract law which Mr. Gage professes to respect and which it is duty to see enforced. If Cruz was an alien Secretary Gage had no right to let him land; if there was any doubt as to whether he was an alien or not he should, instead of trying to prevent it, be among the first to seek a judicial decision that the doubts might be removed. The subterfuge is apparent in the face of the instructions given to the commissioner. The reasons assigned show the subterfuge and the dodge. How does he know that the man Cruz was not brought here in good faith, but simply to make a moot case for the courts? But even if so, shouldn't he be as anxious as any one to have such a case settled by law? How does he know that Cruz was ignorant of the fact that a law was violated in making a contract with him to come to this country to work? If ignorance suspends the law in his case doesn't it apply to nearly every foreigner who has been or may be employed under contract in violation of that law? How many laboring foreigners or foreigners of any other class are supposed to be informed on the laws of the United States, and if ignorance of the law be a reason why it should be suspended in the case of this Porto Rican, isn't it equally a reason why it should be suspended in the case of all people brought into the country under contract, and isn't this virtually nullifying the law by the very men whose duty it is to enforce it?

Is Secretary Gage a law under himself? If not how can he permit this man to land in the face of a law which the Commissioner of Immigration says has been violated, and if permitted to land how can he pick him up any time within twelve months and deport him? Once landed by permission that law has nothing more to do with him, and Secretary Gage has no right to deport him.

If this man can come in so can another Porto Rican, and dozens or hundreds or thousands, and so can the Filipinos, and under these instructions of Secretary Gage each one of them will have as good reason for landing as Jorge Cruz had, for non of them is supposed to know anything about the alien contract law, and neither are the Japanese or the Chinese. Whether an "isolated case" or not ("isolated cases" have frequently occurred but have never before been so disposed of) this action of Secretary Gage opens the door to thousands and practically nullifies the law.

But aside from this, it is a pitiable exhibition of cowardice to cause delay, give time and stave off action on this Porto Rican question until after the next campaign. This case would bring up the whole Porto Rican question and the constitutionality of the legislation enacted and pending, and might knock into flinders the whole scheme by which the administration and its supporters propose to govern our new acquisitions on the novel plan devised by them, by virtue of the constitution, as they claim, but entirely outside of the constitution. They pretend to be acting in pursuance of constitutional power, but simply lack the blunt candor of old Senator Morton, who when asked if the proposed reconstruction measures for the Senate were constitutional blurted out: "Constitutional? H—ll, no; they are extra-constitutional." So with all this legislative scheming with our new acquisitions—it is extra-constitutional.

But does any one suppose that if Secretary Gage and his advisers thought they would be sustained by the U. S. Supreme Court he would have resorted to this cowardly dodge to prevent the case from going as speedily as possible before the court, and that he would not have done all he could to hasten it? Of course he would, and by taking the course he has taken he has simply proclaimed the fact that he and those with whom he acts are afraid of the result and fear to go before the United States Court. That is the construction the American people will put upon his action, and it is the right one.

BENIGHTED AND FOOLHARDY LEADERSHIP.

Some of the hardest blows the Republican leaders in Washington from President down, are now getting are from Republican papers and from some of the most stalwart of them, papers which have heretofore never failed to stand by the party and to support its policies. We have quoted from a number of these, among them the Chicago *Times-Herald* owned and edited by a personal friend of Mr. McKinley, one of the men who joined Hanna in the movement to make him President, and one who has stood by him ever since in all his positions, until the Porto Rican infamy. Before the passage of that bill by the Senate, in the face of such universal protest against it, this friend and champion of Mr. McKinley, thus gave utterance to his amazement and disgust:

Americans wonder and scoff at the fatuity with which British commanders permit themselves to be entrapped and humiliated by Boer strategists in South Africa while under their own eyes in Washington the Republican leaders are rushing opened-eyed into as fatal a trap as ever yawned before a great party.

In vain are the warning cries of faithful friends.

In vain are the appeals to duty, justice and good faith.

In vain are the traditions of the Republic.

In vain are all invocations to save the nation's plighted word from dishonor."

In vain are the rumblings of popular wrath, the threats of party disaster.

"Rooted in dishonor by petty political considerations and sordid special interests, the Republican majority in the Senate to day proposes to jam through the iniquitous Porto Rican tariff bill.

"Never in the history of military or political warfare has there been such an instance of benighted and foolhardy leadership.

"This is not a political question, but a moral one, and the American people will not accept the intrigues of Washington politicians or the interests of trade as superseding the teachings of the decalogue and the gospels.

"After the Senate the House of Representatives!

"After the House the President!

"And after the President—and greater than the Senate, House and President—the people!"

But this was no "trap." No one opposed to the Republican party lured the Republican statesmen into it. It was all work of their own planning and accomplished in spite of the opposition of Democrats and of the few Republicans who set a higher estimate on plighted faith and national honor than they did on lucre for campaign purposes. There wasn't any trap in it. It was simply money that Hanna wanted. No wonder Republicans with anything like a sense of decency and honor are amazed and disgusted.

At the last election in Rhode Island the Democrats cut down the Republican plurality about 1,000. That wasn't much but it is somewhat significant nevertheless.

A Life And Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50 cents and $1.00 Trial bottle 10 cents at R. R. BELLAMY'S drug store. †

ROOSEVELT'S WISH

Mr. David Starr Jordan, President of Leland Sanford University, in California, who is a Republican, announces that he will vote for Bryan next time. Attending an educational convention at Indianapolis last week he announced this fact, referring to which a dispatch to the Washington *Post* quotes him as follows:

"He opposed the Filipino war, and declared that he would vote for Bryan now, although he did not in 1896.

"He was asked: 'Is it Bryan's or McKinley's view that is gaining among the people?'

"'After all this talk, do you ask what I think? Let me quote you Gov. Roosevelt on that. He said to me last week: 'Jordan, I wish to God that we were out of the Philippines and had them off our hands'—and many Republicans are thinking the same. I am free to quote Roosevelt, because I consider him in many respects one of the greatest men in the Republican party.'"

This is a somewhat remarkable utterance for Governor Roosevelt, who has been one of the stalwarts, but he was talking in private then and probably hadn't thought of his remarks being made public. There is little likelihood of his having been misquoted.

In speaking thus, he uttered the sentiments of thousands of Republicans, even among those who are supporting the McKinley policy in the Philippines, for there is no doubt that they are heartily sick of that job and regret that they ever got into it. A good while ago before they had made the awful mess of it they have made, Mark Hanna wished that the Philippines were "at the bottom of the sea" and he didn't have half as much reason to wish that than as he has now.

Governor Roosevelt and the rest of them could get these islands "off their hands" very easily if they would simply assure the Filipinos that we are not fighting to subjugate them, but simply to restore law and order, to see stable government established, and when that is done to let them govern themselves. There are some other things that might have to be considered, such as indemnity for the purchase money, war expenses, etc., but these could doubtless be amicably arranged after the main issue of self government was settled.

CURRENT COMMENT.

—— Mr. Depew's motion that the Democrats in opposing tariff discrimination against Porto Rico, are seeking campaign material, is wrong; the Republicans, in proposing it, are furnishing campaign material, as Senator Proctor has said.—*Brooklyn Citizen, Dem.*

—— A western editor wants to known if this country acquired Porto Rico and the Philippines outside the constitution, and if the treaty was ratified outside the constitution. These questions are calculated to cast a gloom over the Republican brethen.—*Atlanta Constitution, Dem.*

—— The legislative muddle over Puerto Rico into which the Republican brethren have fallen will not be resolved by an evasive compromise enactment, designed manifestly to carry the party over the November election period. It is a serious matter to trample on the Federal Constitution with the heavy heel of Federal legislative authority. The American people will not stand it.—*Philadelphia Record, Dem.*

—Senator Beveridge sent out his speech on the Porto Rican tariff prior to the date upon which it was to be delivered, and when the time came did not make the speech. He subsequently made another, in which there were important changes from the original speech sent out. The Democrats in Indiana have the original speech, however, and propose to use it in the campaign to show what were the senator's real sentiments and how he was obliged to abridge them at the dictation of the administration.—*Augusta Chronicle, Dem,*

A RIDICULOUS OPTIMIST.

S E KAISER.

There was once a man who smiled
  Because the day was bright,
  Because he slept at night,
  Because God gave him sight
To gaze upon his child,
  Because his little one
  Could leap and laugh and run,
  Because the distant sun
Smiled on the earth, he smiled.

He smiled because the sky
  Was high above his head,
  Because the rose was red,
  Because the past was dead!
He never wondered why
  The Lord had blundered so
  That all things have to go
  The wrong way here below
The overreaching sky.

He toiled and still was glad
  Because the air was free,
  Because he loved and she
  That claimed his love and he
Shared all the joys they had!
  Because the grasses grew,
  Because the sweet winds blew,
  Because that he could hew
And hammer, he was glad.

Because he lived he smiled
  And did not look ahead
  With bitterness or dread,
  But nightly sought his bed
As calmly as a child;
  And people called him mad
  For being always glad
  With such things as he had,
And shook their heads and smiled.

SPIRITS TURPENTINE.

— Salisbury *Sun*: Capt. Benj. H. Marsh, one of Salisbury's old and well known citizens—a veritable landmark of the town—died Friday morning.

— Windsor *Ledger*: We are sorry to learn of the death of our venerable and esteemed friend Mr. Richard Parker, of Aulander, Mr. Parker was ninety years old.

— Nashville *Graphic*: M. John D. Jones, an aged and highly respected citizen of the Red Oak section died Sunday about eleven o'clock, from an attack of grippe and a slight stroke of paralysis. He was 84 years of age.

— Littleton *Reporter*: Prof. J. M. Rhodes has donated his entire interest in the real estate property of Littleton Female College to the North Carolina M. E. Conference, which makes the College the exclusive property of said conference.

— Laurinburg *Times*: Quite a fatal accident befell the youngest boy child of our farmer friend, Mr. Moses Douglas, on last Monday, the 2d inst. It seems that the little fellow, with two others of the family, was fishing and gunning when the gun was accidentally discharged and the entire load passed through his neck. His brothers started home with him, but the poor little fellow died on the way.

— Wilson *Times*: Last Friday afternoon Mr. Burt Ferrell, who was well known in this section, was found dead near his home just across the Nash county line. Three bullet holes in his breast told the cause. A year ago he had trouble with some of the members of a family of Deans, who lived near him, and as his body was found in the section of the Deans home they were suspected. But no clue can be found to the perpetrators of the crime, and it will doubtless remain a mystery.

— Newbern *Journal*: Thursday night, Ross and Rudolph Fulcher, colored, two brothers, were riding in a buggy on their way home from a wedding on the plantation of Col. Whitford 6 miles from Pollocksville when called upon to halt by three men, they did not stop at once, when one of the men ran up behind Ross firing a 32 calibre pistol ball in his back which went into the shoulder blade and embeded itself there. The doctor probed and found it was two-thirds through the shoulder blade. Fulcher said they cursed him for not having any money about himself. There seems to be a band of these robbers in that neighborhood as this is the fourth person held up by these three men within two months.

— Statesville *Landmark*: Mr. W. P. Reinhardt, a prominet citizen, aged about 80 years died at his home in Hickory Tuesday night. He was formerly prominent in Catawba's politics and represented the county in the Legislature. —— Mr. Giles Basinger, a young man of Rowan county dropped dead Tuesday morning while working in the field. Without a moment's warning he fell forward and died before assistance could reach him. Mr. Basinger was only 22 years old and unmarried. —— The big bonded whiskey warehouse of Mr. O. V. Davis, of Davidson county, was burned Friday night. At the time of the fire there were supposed to be 35 barrels of whiskey in the warehouse and it was all consumed.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, April 7.—The cotton market opened steady with prices two to six points higher, this improvement being based on firmer English cables than expected and reports of light to excessive rains in the western belt. The bullish news fell flat as a speculative stimulant, however and, immediately following the call business dropped off abruptly to a straggling room week-end evening-up of accounts. Local shorts, New Orleans and Europe, bought the Summer months on the call but later neglected the market. The far months received scarcely a semblance of attention all the session. Receipts were fair with predictions plentiful for continued interior shipments for sometime to come. Southern spot markets were described as fairly steady but very tame. FIGURING ON FENCING.

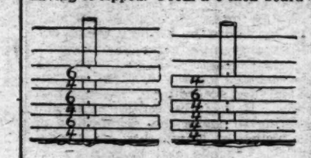
Cracks Cost Less Than Lumber—The More Cracks the Less Lumber.

I was once figuring on building a corn crib, says an Iowa Homestead writer. In figuring the lumber it occurred to me that cracks in a crib were essential and that they did not cost as much as lumber. The more cracks I had the less lumber it required to inclose the crib. I built it out of 3 inch fencing, which was obtained by taking the 6 inch stuff to the planing mill and having it ripped. From a 6 inch board



TWO WAYS OF FENCING.

I got two 2 inch cracks where there was but one before. In making fences and gates I have also found that 4 inch lumber will do as well for most purposes, if it is of the right quality, as the 6 inch fencing. Your lumber dealer will not like to sell it to you, for obvious reasons, but give him to understand that you know what you want and will have no other, and you will get it.

Here are two panels of fence. One is made of 4 inch lumber with two wires, and the other of 6 inch fencing. There are four inches at the bottom for another wire, if needed in each fence. It will be found that there is a saving in lumber in the 4 inch fencing, and it is about the same height and of the same utility. Figure this out and see the saving.

Wine Without Grapes.

"Thanks to one of the latest discoveries of science, we are now able to make excellent wines of various kinds without resorting to the grape," said an expert of the department of agriculture. "Take a sip of this and tell me what you think of it."

"It's sherry, and good stuff, too," murmured your correspondent.

"Apple juice, nothing but apple juice," replied the professor. "Now try this."

"Madeira."

"Apple juice again. Now this."

"Sauterne, of course."

"Apple juice once more," said the professor. "These wines, all of them capital, as you will have noticed, are simply apple juice fermented with yeasts of different kinds, but the yeasts are wine yeasts brought from famous grape growing districts in Europe.

"In the soil of the district of Xeres certain species of minute fungi exist which, floating about in the air or adhering to the skins of the ripened grapes, get into the vats of the freshly expressed grape juice and multiply in the latter in incalculable numbers, feeding upon it and incidentally giving to it the peculiar sherry flavor. We merely substitute apple juice, which serves equally well as a basis, add to it a small quantity of the same species of germs, procured directly from the Spanish vineyards, and, lo! we have sherry wine, possessing the true flavor and aroma. There are concerns now in France and other parts of Europe that make a business of propagating the yeasts of various kinds of wines and putting them up in hermetically sealed bottles for such uses."—Washington Post.

The Soy Bean.

The soy bean is one of the staple crops of Japan, which attracted little attention in this country until about ten years ago, but is now becoming quite common. The crop is cultivated like corn, the seed being planted in drills at the rate of half a bushel per acre. The stems alone are too coarse to make good hay, but are covered with such a dense growth of leaves and are so prolific in fruit that the hay is prized highly, especially for milk cows and for fattening animals. The yield of

SOY BEAN—LEAVES, FLOWER AND POD.

green forage is heavy when grown on good ground, and the yield of beans is usually from 20 to 30 bushels per acre. Those who have had most experience with this crop find that the best way to handle it is to cut or pull the plants when the first pods begin to open and thrash as soon as dry enough. In this way the coarse stalks are so broken in pieces and mixed with the leaves and immature fruit that nearly all will be eaten. It is doubtless one of the best of the legumes for the silo, as it can be more easily handled for the cutter than plants like clover or cowpeas. There are a number of varieties, differing mainly in the time of ripening and the coloring of the seeds.

What a first class asparagus bed needs is a 3 inch coat of rich manure every fall.

The Lamb Frog.

There is a species of frog which dwells on the western tiers, Tasmania, whose voice resembles the bleating of a lamb. In the olden days a shepherd, hearing the sound for the first time, thought he had discovered a contingent of lost ewes and lambs and followed the sound for some days, returning in rags and half starved.

Power of Coal.

An interesting calculation has been made which shows that the energy produced by a pound of good coal equals the work of one man for one day. One square mile of a seam of coal four feet deep could therefore be made to exceed the work of 1,000,000 men for 20 years.

Healthy Cheerfulness.

Do not allow a melancholy person to enter the sickroom. There is nothing so absolutely necessary to an invalid as cheerful companions. A nervous woman may be thrown into a relapse by a well meaning but mischief making friend relating to her how a mutual friend suffered with a similar disease.

The fatigue felt after exertion is now usually attributed to the presence in the muscles and blood of the chemical products that result from action.

In France more than a third of the population (34.76 per cent) live in cities.

A Novel Sight.

At an early hour a few mornings ago, about two miles from Selma, N. C., one of the Southern trains ran over the right arm of Frank Price, a white man, completely severing it from his body. He was drunk and down, with his arm across the track. He was found half an hour later and taken to Selma by an engine. He walked around awhile before Dr. Noble could be called to dress his wounds.

Then he went to the depot and sat down. He had not been there long when a negro man came along with the lost arm, which he had found on the track.

The sight of the lost member infuriated Price, and he "cussed out" the negro and started for the doctor's office, the negro following him with the arm. On the way Price stopped and "cussed out" the barkeeper who, he said, sold him the whisky.

"It was a novel sight," said the man who brought the report of the accident to this city, "to see the man walking about the street and a negro coming along behind him with his lost arm."—Norfolk Virginian.

The Morning Star.

WILMINGTON, N. C.

SUNDAY MORNING, APRIL 8, 1900.

WILMINGTON SIXTY YEARS AGO.

What She Was Doing, What She Did and Who Did It.

Sixty years ago Wilmington celebrated the completion of the W. & W. Railroad by giving a big dinner to the stockholders and their friends. One thousand people participated; came from all points between Weldon and Wilmington. They brought with them a barrel of Roanoke water which we mixed with a barrel of our Cape Fear water, together with plenty of lemons and sugar and Salisbury "corn." This formed a part of the liquids for the occasion. The gathering was a big one for those days, and the occasion was one of no little interest to the citizens of Wilmington who had subscribed for a larger amount of stock in the road than the entire property of Wilmington was assessed at. Hence the occasion. The day was one of great interest and rejoicing.

Sixty years ago the two squares between Market and Princess, Water and Second streets, went up in ashes; every building except the Cape Fear Bank, which stood where now stands the elegant Masonic Temple, was destroyed by the flames of the great "Dawson fire," which started in Mr. Dawson's store, standing on the southeast corner of Front and Market streets.

Who were the leading men—the business men—of that day and had done so much towards the success of Wilmington's first great enterprise? While every good citizen did all he could towards the success of the enterprise, I will not attempt to name but a few of them, viz: Gen. E. B. Dudley, Gen. James Owen, W. A. Wright, J. G. Wright, Dr. DeRosset, Sr., Dr. F. J. McRee, Dr. Bellamy, James Cassidy, Jno. A. Taylor, M. London, Col. John McRee, Gen. Alexander McRee, Henry Nutt, J. K. Dickinson, Dr. Thos. Wrignt, John Walker and T. I. Davis. A few of the principal merchants were Aaron Lazarus, R. W. Brown, Dickinson & Morris, vessel agents to procure charters or freight for the captains or masters. The writer has counted 150 sail vessels in port at one time, mostly brigs and top-sail schooners, and two-thirds of them consigned to Dickinson & Morris. Stone & Ellis were large ship brokers; Hall & Armstrong, wholesale grocers. Alex Anderson, John Dawson, W. A. Williams and Joe Sintas were among the Market street merchants.

Elizabeth College Commencement.

The STAR acknowledges with thanks the receipt of the annual commencement announcement of Elizabeth College, Charlotte. Commencement week will be June 1st-5th and the baccalaureate sermon will be by W. C. Schaeffer, D. D., of Savannah, Ga. The address before the Missionary Society will be by Rev. Wm. A. C. Mueller, of Charleston, S. C., and the address before the Literary Societies by Prof. Lawton B. Evans, of Augusta, Ga.

The college has had a most successful session. The students and faculty have enjoyed good health and earnest and thorough work has been accomplished in all departments.

Fire at Northrop's Mill.

A small fire in a pile of lightwood on the wharf in rear of the lumber yards of Messrs. S. & W. H. Northrop, near the foot of Castle street, caused some excitement on the streets yesterday afternoon shortly before 4 o'clock, and many thought that the lumber plant was being consumed. An alarm was sent in to the department from box 45, and the hose wagons, with the assistance of the tug *Marion* which steamed up the river and put her pumps at work on a stream, soon had the flames subdued. The total loss was over $100, upon which there was no insurance. It is supposed the origin of the fire was a spark from some of the passing steamboats.

He Fooled The Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile Cure on earth, and the best Salve in the World. 25 cents per box. TERRIBLE FLOOD AT AUSTIN, TEX.

A Dam in Colorado River Gave Way and the Water Swept the Valley.

MANY PERSONS DROWNED.

Great Damage to Property--Electric Light Plant Destroyed—Over a Hundred Houses Carried Away—Railroads Suffered Severely.

By Telegraph to the Morning Star.

AUSTIN, TEXAS, April 7.—This city is to-night in pitch darkness, with a raging river, one mile wide and swollen far beyond its natural banks, roaring and surging through all the lower portions of the town, having spread destruction and death in its wake. In addition to the vast loss to property interests it is calculated that between thirty and forty lives have been sacrificed, and the reports coming in from the tributary country to-night do not tend to improve matters. The flood is not unlike the disastrous Johnstown flood some years ago, in that a raging river, already swollen far beyond its capacity, bore too heavily upon an immense dam spanning the river here, breaking it and letting loose a reservoir of water thirty miles long, half a mile wide and sixty feet deep to aid in carrying destruction down the valleys of the Colorado river.

The great dam in the Colorado river gave way at noon to day from the enormous pressure of water and debris and with a roar and crash swept the valleys below the city, wrecking the immense light and power plant and drowning eight workmen.

After daylight this morning, it became evident that the situation was serious. The river began to rise so rapidly that it was evident that the immense dam and all the power houses and contents, costing one and one-half million dollars, were in imminent danger. To add to the terror of the situation, small frame houses, trees and debris of every description, in varying quantities, began descending the river and piling up against the upper face of the dam. This weight was augmented every moment until by 10 o'clock there was a mass of debris lodged against the dam which threatened the safety of the structure.

The crisis came shortly after 11 o'clock when suddenly with a report like the roar of the ocean a great wedge, 25 feet high, five hundred feet wide and about eight feet thick, rolled out of the center section of the dam, down the face of sixty-foot depth into the river below. This left a yawning gap in the very middle of the dam through which the debris and water fiercely poured while the flood already raging was threatening everything in its path, this sudden breaking of the dam but serving to add to the horror of the catastrophe.

The released water poured into the power house, catching eight employes at work there, drowning all of them instantly. The breaking of the dam caused wild excitement in the city. The telegraph companies at once wired to places below here to look out for the great wave, and runners were dispatched on horses to notify those living in the valleys below the city. The telegraphic messages served as a timely warning to many, but the rushing waters outstripped the horsemen, and many houses were picked up and swept away before the occupants could get together their valuables.

Within a short time all the valleys to the south and west of Austin were filled to overflowing with water and the southern part of the city tributary to the river was inundated. Large crowds collected on the river banks and several persons were swept into the river when the dam broke, but all were saved by boatmen.

A crowd of white people, numbering about thirty, living just below the dam in tents, were seen at their habitations just before the dam broke and have not been accounted for since. It is generally believed that all of them were swept away.

One man attempting to cross the roadway leading to the bridge across the river just as the big wave rolled down, was caught and he and his horse and buggy went down with the torrent and were heard of no more.

A family of six negroes living in the valley south of the city are known to have been drowned. It is estimated that more than 100 houses have been destroyed and the loss of property will be great, in point of the light and power plant, costing one and a half million dollars. The breaking of the dam engulfed the old water company's plant below the city and it is to night lying fifteen feet under water, while the city is in darkness and without water.

Reports from points below here are to the effect that the flood has been most disastrous and the breaking of the dam has occasioned many thousands of dollars worth of loss to property

The surface of the river throughout the day has been dotted by small houses or fragments of houses and drowned animals, along with trees and debris, all of which bear testimony to the ravages of the flood in the mountain region above Austin.

In addition to the losses here, the International and Great Northern railroad and the Austin and Northwestern railroad, both entering this city, have suffered severely, the first named having a serious wreck by reason of the floods this morning.

The southbound cannon ball train from St. Louis, on the International and Great Northern due at 4 A. M., was wrecked at McNeil, nine miles above here, as a result of a washout. The engine and cars plunged into a culvert, demolishing the engine, the mail, baggage car, two day coaches and one sleeper. The cars left the track and rolled over on their sides in four feet of water, but fortunately no lives were lost nor were any of the passengers badly hurt. This is attributable to the fact that there were not many on the train and it was running slowly at the time owing to the bad track. The mail clerk, Oral Davis, of San Antonio, was seriously bruised and engineer P. F. Maynham, of San Antonio and fireman C. M. Stanley were slightly injured. The Austin and Northwestern road operated no trains to-day, due to the fact that five of their bridges were washed away during the night.

WACO, April 7.—Reports of loss of life and damage caused by flood continue to pour in from all directions and indications point to a repetition of the disasters of last year. The loss of life to a great extent has already surpassed that of previous years. All streams, including the Brazos and Colorado rivers, are overflowing the lowlands and rising very rapidly. The crops of cotton and corn are nearly completely submerged and will have to be replanted.

Articles of agreement for the match between Gus Ruhlin and Tom Sharkey were signed yesterday. They provide that the fight is to be held at the Seaside Athletic Club on July 16th, and if either man is whipped before that date the match is off.

BOERS THREATEN TO ATTACK BRABANT'S FORCE

No Advices Received in London from Lord Roberts—The Situation Regarded as Unsatisfactory.

By Cable to the Morning Star.

LONDON, April 7, Midnight.—No news was issued by the War Office to-night. None was received from the front, except a dispatch from Bloemfontein, dated April 4th, relating to the engagement of General Gatacre at Reddersburg, which seems to have been held back by the censor.

It will be remembered that Lord Roberts, in reporting the "unfortunate occurrence" at Reddersburg, said Gen. Gatacre had arrived there on the morning of April 4th. Hence he may have succeeded in engaging the Boers later in the day. It is strange, however, that General Gatacre's subsequent movements have not been mentioned in Lord Roberts' other dispatches, the last of which was dated the evening of April 6th.

It is reported from Ladysmith that the Boers are beginning to construe General Bullers' inactivity as a sign of fear or inability to resume active operations. Hence they are showing much activity, particularly around Biggarsberg, and are said to be planning to outflank General Buller by an advance in force by way of Helpmakaar. As the plan is known, it is not likely that the Boers will find Buller unprepared.

The Boers state that the Colesberg and Stormberg commandos, numbering six thousand men and ten guns, have reached Kroonstad.

Boers Threaten Brabant.

LONDON, April 7, 2.35 P. M.—The Boers are in force at Wepener, north of Smithfield, Orange Free State, and are threatening General Brabant's colonial division, the main body of which, with the artillery, is at Wepener.

A telegram which left Maseru, Basutoland, north of Wepener, at midnight describes the Boers as being "in great force" and as afraid to make a frontal attack, but, it is added, they were endeavoring to turn the British position by crossing the Basuto frontier by a road skirting Caledon.

CHINA AND THE POWERS.

A Joint Note Demanding Suppression of the "Boxers" With Threat to Land Troops.

By Cable to the Morning Star.

LONDON, April 7.—A special dispatch from Shanghai announces that the American, British, German and French Ministers have sent a joint note to the Chinese foreign office, demanding the total suppression of the society of "Boxers," within two months, and announcing that otherwise the powers named will land troops and march into the interior of the northern provinces, Shan Tung and Chi Li, in order to secure safety of foreigners.

According to the same dispatch the American, Italian and French legations are now provided with naval guards from the large gatherings of warships at Taku.

Liu Kun Yih, Viceroy of Liang Kiang, had three audiences with the Dowager Empress relative to the Emperor, and it is believed that he has impressed her with the advisability of restoring his majesty to power.

TIEN TSIN, April 7.—The United States gunboat Wheeling and the Russian gunboat Korietz arrived at Taku to day.

WASHINGTON, April 7.—It is said at the State Department that nothing has been heard from United States Minister Conger within the last few days to indicate any substantial change in the situation in Shan Tung. The minister has not informed the department of the reported concerted action of the representatives of the foreign powers at Pekin.

Mr. Congers' instructions enable him to make as strong a presentation as he may deem necessary, and even to intimate the intention of the United States government to undertake through its own agencies to supply the needed protection to our citizens, should the Chinese government fail in its duty in that matter.

The United States minister was specifically instructed that he must act on his own responsibility, and while his course might lie parallel to that followed by the other ministers resident in Pekin, he must under no circumstances join with them in a concert.

The minister appears to have anticipated the necessity for something of the kind, for a month ago he suggested to the State Department the expediency of having a warship from Admiral Watson's fleet sent to a point as near Pekin as possible. The Wheeling was accordingly dispatched from Manila to Taku, which lies at the mouth of the Pieho river. The Wheel from her light draft may easily ascend the river as far as Tien Tsin, one of the storm centers at this moment, and a point giving easy access by rail to Pekin.

THE REPORT IS DENIED.

General Manager Gannon of the Southern Says There is No Likelihood of a Strike on That System.

By Telegraph to the Morning Star.

WASHINGTON, April 7.—Third Vice President and General Manager Frank S. Gannon, of the Southern Railway, to day denied that there was any likelihood of a strike of the telegraphers on that system and also that the engineers, conductors and railway trainmen are dissatisfied. Mr. Gannon ascribed the agitation to officers of the Order of Railway Telegraphers, whose headquarters are in Illinois. "These men," said Mr. Gannon, "have been steadily at work trying to create dissatisfaction for five years, resorting to misrepresentation and every means that seems to suggest themselves, whether fair or unfair, to stir up strife."

Mr. Gannon said that delegations of conductors and engineers met the officials of the Southern in this city last January and reached a decision that was mutually satisfactory. He said that the newspaper reports published some months ago that the employes of his system were dissatisfied were instigated by the organizers who seem to think they might be able to force an issue.

Mr. Gannon further stated that he met President Powell, of the Railway Telegraphers, last February, and had a clear and distinct understanding with him.

"There are no strained relations anywhere in our service," said Mr. Cannon in conclusion. "Our men realize that we are doing and always have done everything we could do for their interests. We meet our men whenever it is necessary and always reach a mutually satisfactory understanding. Of course the object of the discontented ones in this case is to make a lot of noise and create some opinion that may be favorable to them.

SENATOR VEST'S ELOQUENT SPEECH

Eulogized the Jesuits for Work Among the Indians and Denounced the A. P. A.

HOUSE OF REPRESENTATIVES.

Tributes Paid to the Memory of "Silver Dick" Bland—Resolution of Sympathy With the Boers Objected to by the Republican Leader.

By Telegraph to the Morning Star.

WASHINGTON, April 7.—The notable feature of the Senate to day was an eloquent speech by Senator Vest, of Missouri, supporting an amendment to the Indian bill, for the education of Indian children in contract or sectarian schools.

Prefacing his remarks by the statement that he had always been a Protestant and had no sympathy with many of the dogmas of the Roman Catholic Church, he pronounced a brilliant eulogy upon the Jesuits for their work among the Indians.

In the course of his remarks Senator Vest paid a tribute to Booker Washington for his great work among the colored people of the South. He took off his hat, metaphorically, he said, to Mr. Washington. Prof. Washington had struck the key-note of the great negro problem by teaching the colored youth how to labor. This, he added, was the true secret of the success of the Catholics in their work among the Indians. They taught them how to work.

The great undertaking had gone forward until, said Senator Vest, "the A. P. A. and the cowards who are afraid of it," had struck down the appropriation for the continuance of the work. He declared that he was ashamed that any American should uphold such work of a secret political society. He would denounce it if it were the last act of his life. He ridiculed the A. P. A. for adopting a resolution demanding his impeachment.

"I do not believe," said Senator Lodge, Massachusetts, addressing the Senate in a brief reply to Senator Vest, "that it is right to tax one man to support another man's religion." Upon that propostion, Senator Lodge maintained it was not right to appropriate the government money to support any branch of the church.

The vote was ayes 14, noes 21, no quorum, and the Senate adjourned at 4.50 P. M. with the amendment still pending.

House of Representatives.

The House to-day paid tribute to the memory of the late Richard Parks Bland, of Missouri, popularly known as "Silver Dick Bland," who was a member of the House for twenty six years. Splendid eulogies of the life and career of the great champion of silver were offered by members of both sides of the political aisle. At the conclusion of the ceremonies the House as a further mark of respect adjourned.

A resolution was adopted calling upon the secretary of war for information as to whether Charles E. Magoon the legal adviser of the insular bureau had ever rendered an opinion that by the treaty with Spain, the constitution was extended over Porto Rico and the Philippines.

Mr. Richardson, the Democratic floor leader, asked unanimous consent for the consideration of the following resolution:

"*Resolved*, That this House views with deep interest the heroic struggle of the Republics of South Africa to maintain their independence, and hereby tenders them our most profound sympathy in their unequal but gallant struggle."

"That resolution should go to the Committee on Foreign Affairs" observed Mr. Payne, New York, the floor leader of the majority.

"Did I understand the gentleman to object?" asked Mr. Richardson.

"I did," replied Mr. Payne.

At 1 o'clock public business was suspended and the remainder of the day was occupied in eulogies on the life, character and public services of the late Representative Bland. Feeling tributes were paid to the sturdy old champion of silver. Mr. Clark, Missouri, said in part: "Mr. Speaker, Richard Parks Bland was a unique figure in American politics. The history of the republic cannot be adequately or intelligently written without assigning a high place and large space to this unpretentious Missouri farmer. Wherever money circulates or civilization abounds, his name is familiar to the ears of men, and is spoken reverently to day by millions who never looked upon his rugged face and to whose language he was an utter stranger. He belonged to that very small group of American statesmen who achieved imperishable renown without reaching the Presidency. You can count them on the fingers of your two hands without counting twice; but whoever else may be excluded from that goodly company by the inexorable test of time Bland will stand there immortal."

The Agricultural Appropriation bill reported to the House to-day carries $4,116,400, being $380,788 more than the law for the current year. An additional allowance of $40,000 for seed distribution is granted upon the petition of 225 members of the House, and $60,000 is appropriated for iron warning towers for the Weather Bureau, in place of the present wooden structures.

READY FOR ACTION.

Clash Between Military Forces at Frankfort, Ky., Narrowly Averted.

By Telegraph to the Morning Star.

FRANKFORT, KY., April 7.—A clash between the opposing militia was narrowly averted here to-night. Two soldiers at the State House were arrested for drunkenness by the police and their comrades rescued them. A number of shots were fired, but no one was hurt. Chief of Police Williams summoned his full force and went to the State House to demand the prisoners. The Beckham military authorities intercepted the police and dissuaded them from attempting to capture the men who had started the trouble and who had been rescued by their comrades. The soldiers of the opposing administrations were drawn up ready for action.

A large flouring mill at Proctorville, Ohio, caught fire yesterday, and from this a conflagration resulted which destroyed half the thriving little town. The loss is estimated at $300,000, with thirty per cent. insurance.

DEMOCRATIC CONVENTION

Will Meet in Raleigh Wednesday—The Programme--The Nominations--U. S. Court for Wilmington Postponed.

By Telegraph to the Morning Star.

[*Special Star Telegram.*]

RALEIGH, N. C., April 7.—Wake county Democrats held their convention to day and appointed delegates to the State and Congressional conventions. No candidates were endorsed.

After the convention Chairman Simmons spoke to those present on the amendment.

Rockingham county instructs for Cunningham for Lieutenant Governor.

Durham county endorses J. S. Carr for United States Senator.

Anson county instructs for Everett for Treasurer.

Democrats of the Twenty-seventh Senatorial district at Statesville today nominated Chas. H. Armfield, of Iredell, and D. M. Reece, of Yadkin.

The Democratic State Convention will be called to order in the Academy of Music next Wednesday at 11.45 o'clock by State Chairman Simmons, who will name as temporary chairman E. Y. Webb, of Shelby. Hon. Cyrus B. Watson, of Winston, will probably be made permanent chairman. Admission to the hall will be by ticket until all the delegates are seated, after which others will be admitted.

Aycock will be put in nomination for Governor by Hon. M. H. Justice, of Rutherford, and the nomination seconded by E. W. Pou, of Johnston.

United States Court at Wilmington.

United States Court at Wilmington will not be held in May as usual and as provided by law, but an order has been issued by the clerk directing the jurors, witnesses and defendants to be present on June 18th, instead. This adjournment is made necessary by the fact that Judge Purnell has been designated to sit with the Circuit Court of Appeals at Richmond, Va., early in May. It is understood that both Judge Goff and Judge Simonton will visit this district this Summer. One of these will sit with Judge Purnell at the court in Raleigh and the other at Wilmington. It is not yet known which one will come here and which will be in Wilmington.

DEMOCRATIC CAUCUS CALLED

In the Matter of the Porto Rican Bill. Republican Threats to Oust Democrats Whose Seats Contested.

[*Special Star Telegram.*]

WASHINGTON, April 7.—A Democratic caucus will be held at the Capitol to-night. The purpose of this is to reach an agreement upon some course of action by which the Democrats, when the Porto Rican bill shall come up for a vote on Wednesday, will gain the advantage in the matter of pairs, made necessary by absenteeism on both sides of the House. It has been suggested that the caucus will declare all pairs void, thereby taking advantage of the greater number of Republican absentees.

Gen. Grosvenor, who is a member of the Ways and Means Committee which has the bill in charge, to-day, in commenting on the proposed action of the Democrats, said: "If this is done by the Democrats the Republicans will postpone the vote on the bill and bring forward four contested election cases, one of which is on the calendar and three in committee. In each case the sitting member will be unseated, thus increasing the Republican majority by eight." It will thus be readily seen that if the Democrats carry out their plans of to-night's caucus and the Republicans can muster the necessary votes, Representatives Bellamy and Crawford, who are among the four mentioned, will undoubtedly be unseated.

It is a matter of very much doubt whether or not the Republicans can muster the necessary votes, as many of the members are away, and it is said that some of them are intentionally absent, not caring to go on record as again favoring the bill.

GEN. OTIS COMING HOME.

Relieved of Command in the Philippines at His Own Request—MacArthur to Succeed Otis.

By Telegraph to the Morning Star.

WASHINGTON, April 7.—General Otis has been formally relieved of the command of the United States forces in the Philippines and of the Eighth army corps. The correspondence showing how this was brought about was made public at the War Department this afternoon. It is as follows:

"*Manila, April 3.*—Adjutant General, Washington.—Private interests require my return to States; absent from family and business, attention to which important, since November, 1897, except few days; wish to sail by May first if possible; believe matters here can be placed in quite satisfactory condition by that date, although large repressive military force must be maintained for some time.

"*Washington, April 3.*—Otis, Manila.—Replying to your cable of April 3rd, the Secretary of War instructs me to say that the President regrets to have you leave the Philippines, but he feels that your distinguished and successful service in both military and civil administration for nearly two years entitle you to prompt compliances with whatever wish you choose to express regarding your assignment to duty, and the requisite order will be made for your return May 1st, by such route and taking such time as may be agreeable to you. DEWEY'S VISIT TO CHICAGO.

A Great Naval, Military and Civic Demonstration in His Honor.

By Telegraph to the Morning Star.

CHICAGO, April 7.—The largest and most enthusiastic meeting of the General Executive Committee on entertainment of Admiral Dewey was held to-day with Mayor Harrison in the chair. It was the unanimous sense of the meeting that the demonstration would be the greatest naval military and civic representation ever made in the West. A committee consisting of Chairman W. B. Conkey, of the transportation committee and J. M. Glenn, secretary of the general executive committee, left Chicago this afternoon for Washington and was instructed by the meeting to present to Admiral Dewey at a meeting Monday morning the compliments of the city and lay before the Admiral the details of the programme arranged during his visit to Chicago. All plans pending and outlined for the celebration will be followed according to the original plans. It was the sentiment of the meeting to make the celebration of the victory at Manila bay an annual event in Chicago and to help spread the custom everowhere througout the entire country.

Senator Pettus yesterday introduced a bill providing for the abolishment of the duty on printing paper.

To Our Patrons and the General Public:

We take pleasure in making the following announcement:

For all gas used for illuminating purposes after April 1, 1900, we will reduce our rates from $2.00 to $1.80 per thousand cubic feet, with a discount of 10c for payment on or before the 5th day of the following month, making a net rate of $1.70 per thousand.

For gas used for fuel or cooking purposes our rate is $1.50 gross, with a discount of 10c if bill is paid on or before the 5th of the following month, making the net rate for gas used for fuel purposes $1.40 per thousand.

We cordially invite our patrons to notify us if they have any cause for complaint against the service we give them, and we will gladly try to discover the cause of the trouble and remedy the same.

It has been demonstrated in Atlanta and many other Southern cities that for cooking no fuel is so perfect as gas. It is also as cheap as any other fuel. In order to demonstrate the truth of these statements we have ordered an assortment of the best gas ranges, and to all who place their orders with us during the next thirty days we make the following offer:

For our Vulcan Range, with ovens 18 inches wide by 18 inches deep, placed in your kitchen, including free connections, $15.50; terms, $2.00 down and the balance in payments of $1.50 per month until paid for.

For our Vulcan Cooker, with oven 16 inches wide by 16 inches deep, placed in your kitchen, with free connections, $10.00; terms, $2.00 down and $1.25 per month until paid for.

These prices are subject to a liberal discount if paid for in full within 10 days after delivery of stove.

With gas at $1.40, and a first class gas range at your disposal, you will find it the cheapest, cleanest and best fuel known for cooking.

The gas range will enable you to keep your house cool in Summer, it will greatly alleviate if it does not entirely solve the servant problem, and in many ways will add to the comforts of home.

We have already placed a few of our new ranges in town, and these are giving entire satisfaction.

We will be glad to have you call at No. 27 North Front street and examine our stock.

Or, if you will advise us, our representative will call at your house to explain more fully the advantages of cooking by gas.
